

3 March 1977

STAT

NOTE FOR: [REDACTED]  
John McMahon

The people-side of the PRM 11 Task 2 activity is beginning to emerge as something like this:

An SCC subcommittee to provide guidance and review the paper before it goes to Brzezinski. It would meet probably no more than four times, perhaps only twice.

DCI -- Chairman  
D/DCI/IC -- Vice Chairman  
CIA -- Knoche or Taylor  
OSD -- Walter McGifford, ASD/ISA  
JCS -- Ray Sitton, J-2  
State -- Habib ?  
NSC -- Aaron or Hoskinson

The real work would be done by a drafting/working group. It would have to meet, say, 4-6 hours per week until finished:

DCI, Chairman -- John McMahon  
CIA -- Stevens  
DCI -- Lehman  
OSD -- Latimer  
NSC -- Hoskinson  
ExecSecretary -- [REDACTED]

STAT

State (say, Saunders) and JCS (say, Anson) may have to be included.

Staff work to support the drafting, which really would be done by [REDACTED] would come from the ICS.

From the beginning, we have known we would want to consult directly with numerous senior intelligence managers such as: Lew Allen, Charlie Cook, Sam Wilson and Bobby Inman. The important thing here is not to create a formal panel, but to get to them directly.

25X1

From the beginning, we have known we would want to consult directly with numerous senior intelligence managers such as: Lew Allen, Charlie Cook, Sam Wilson, and Bobby Inman. A JCS representative (Anson) should also be included. The important thing here is not to create a formal panel, but to get to them directly.
